March 1 – 31, 2021

V-Room at KS Tiang, Jl. Cok Rai Puduk No. 8, Ubud, Bali

V-Room is pleased to announce CONSTELLATIONS #2, a display of the artworks: 'Goes Around, Comes Around', 2020 (Fendry Ekel) // 'In God We Trust', 2021 (Marco Cassani) // 'Trust', 2020 (collaboration Fendry Ekel + Marco Cassani).

V-Room (Viewing) is an artists run space located at the main road of Teges in Peliatan, Ubud, Bali. It was initiated by visual artists Fendry Ekel and Marco Cassani in collaboration with Honold Fine Art. The art space is dedicated to serve as a platform for contemporary art and its related discourse in an intimate setting.

Starting in 2021, *V-Room* is showing the ongoing art program, titled *Constellations*, where a continuously changing display of works will be presented by monthly replacing and adding pieces of art to form new configurations and highlight the relations between individual works. Every art piece operates in a sort of relay, taking position within the room and eventually passing on the baton. The program's intention is to foster a dynamic way of showcasing the works of art.

Having perceived how different communities deal with a new form of day-to-day situation caused by the pandemic in 2020 shoulder to shoulder, inspired the initiators of *V-Room* to the concept and specific format of *Constellations*. Both the art space and its program underline the importance of being with an art creation in a human scale surrounding in order to maintain a real relationship with it.
